OUR DEPARTMENTS

PPE – Personal Protection Equipment

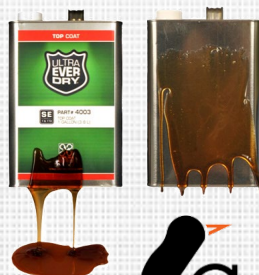

We supply Polish industrial market with PPE equipment since 1990. We offer all kinds of work protecting equipment and workwear products.

OUR DEPARTMENTS

Industrial chemistry

We are partner of US Advanced Technology Group that provides advanced solutions to industrial market

Ultra Ever Dry - superhydrophobic and oleophobic protection. Keeps surfaces dry and provides self cleaning properties. Increase efficiency of production lines, protects against corrosion, icing and dirt.

Gentoo is the next generation of coatings. With its combination of high performing abrasion resistance and very low sliding angle, gentoo excels where other coatings have fallen short.

Aveho - powder or liquid form technology that absorbs odours and bad smell nearly completely.

S3 Solution - product used to decrease emission of H₂S (hydrogen sulfide) in industrial facilities.

Line-X - extremely resistant poly-urea industrial coating.
